# About Us

Welcome to the third edition of our home and garden magazine. Over the last year we have supplied garden and professional equipment to a wide range of people including local councils, tree surgeons and keen gardeners.

We have included details on all the latest products from our premium suppliers including John Deere, Stihl, Viking and JCB for your perusal.

We welcome you to any one of our depots to explore the range, or please pick up the phone to discuss your requirements.

We look forward to working with you in 2018.

*The RVT Horticultural Team*

# John Deere Gators

## Introducing the new John Deere Diesel XUV 865M utility vehicle

Offering the company's quietest ever cab, more room for both driver and passengers and an extremely efficient heating system, John Deere's new full-size Gator utility vehicles are designed to maximise year-round productivity and comfort.

The 23hp 865M offer power steering, a CVT transmission and a top speed of 31mph (50kph), plus a tight turning circle and optimal weight distribution for superior off-road performance. For extra versatility, these Gators can be fitted with a wide range of over 90 attachments from snow blades to winches and feature a large 42-litre fuel tank to keep the vehicle running longer between fill-ups.

**XUV 865M**

The spacious, pressurised cab can accommodate three people, for off-road use only. This new cab incorporates noise isolation and sound dampening components, making it the quietest yet available on the Gator range. It also offers year-round weather protection and the heating system includes a windscreen defrost feature.

This new, sleekly styled XUV Gator features ample legroom and a tilt-able steering wheel to help reduce driver fatigue during long working days. The versatile and durable cargo box has a load capacity of 454kg, while towing capacity has been increased by a third to 907kg and total payload capacity is 680kg.

## 8008 CTS

The 875kg 8008 CTS micro excavator is a compact machine, capable of high performance in the most restricted areas, including within buildings and in rear gardens. In fact it's the most powerful machine of its size on the market. As such, the 8008 CTS micro excavator can dramatically reduce the time and manpower (just one man plus the machine) it takes to carry out labour-intensive digging jobs.

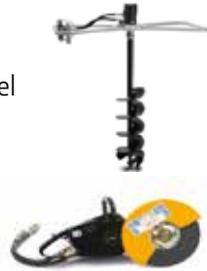

## HTD5 DUMPSTER

The JCB HTD5 dumpster is a compact, walk-behind, hightip device that's over 20 times more effective than the traditional wheelbarrow. Ideal for use with a JCB micro excavator, it's powered by a lombardini diesel engine and has an electric start. Maximum machine width of 690mm – fits through standard 750 mm doorway 1450mm tip height – tips directly into a skip or high-sided vehicle, High carrying capacity of 500kg
